

From the Business Faculty

Year 12s network with local business leaders

This week seven students of the Business Faculty had the opportunity to attend their first Chamber of Commerce breakfast.

Nicholas Lambourne, Tegan Gillis, Georgia Freshwater, Jonathan Bird, Amanda Whittle, Chris Goode and Sergio Demetriou of Year 12 took the opportunity to meet local business leaders and learn more about the day-to-day issues confronting local business at the September meeting of the South East Brisbane Chamber of Commerce.

As students of Business Organisation and Management, each student has recently developed their own business plan for a start-up business so the opportunity to network with local business leaders and gain insights into the real world of business was a terrific experience.
