THE hunt is on for the most gorgeous, finest and keenest Australians, fake tanners and tarty-throwers in a wacky awards program led by Con the Fruiterer.

Nominations are open for the gongs, to commemorate the second annual Australian Summer Stonefruit Day on January 25.

Con needs your help in suggesting contenders to celebrate the country's peaches, nectarines, plums and apricots.

**THIS WEEK'S GENERAL TREND**  
 The sun enters the sign of Aquarius leaving responsible Capricorn behind. Unexpected events will keep us on our toes and the urge for something different will see us trying new things. This can be a very refreshing time if used wisely.

**THE MOONLIGHT**  
 January 23, new moon in Aquarius. This is a great moon to get out of our comfort zone and do something fun and original. It is easy to get bored with our current life if we don't spice it up with something a little different from time to time.

**BURNING QUESTION? Find the answer at [planetsinmotion.com.au](http://planetsinmotion.com.au) - cost \$15**

**AQUARIUS Jan 20-Feb 18**  
 Happy birthday! The sun has entered your sign and you are ready to shine in all your splendour. It's your birthday, enjoy it. Celebrating the day we were born is celebrating ourselves; be good to you and do something special for yourself.

**PISCES Feb 19-Mar 20**  
 Venus is still crossing through your sign and you should enjoy receiving her favours. In love and in money, good and plentiful vibes should be bringing you loads of smiles.

**ARIES Mar 21-Apr 20**  
 It is all happening at work where you will feel that your efforts are finally paying off and you are making some headway. Try to think outside the square as unusual choices could be best.

**TAURUS Apr 21-May 20**  
 For the next couple of weeks both your professional and personal life should work like a well-oiled machine. Don't let this lull you into a false sense of security as there are always bumps along the way.

**GEMINI May 21-Jun 21**  
 If you have been waiting to make some changes within your work, now could be a good time to implement new strategies. Think about what you would like in the long term and make it happen.

**CANCER Jun 22-Jul 22**  
 Right now you may like to forget about the realities of life and instead retreat to the happy place where the good fairies live! But this is not to be, everyday responsibilities will require your full attention.

**LEO Jul 23-Aug 22**  
 This is a period of change. As such life could be a little chaotic as the different elements find their place within the bigger picture. Making the right choices now is essential for a successful future.

**VIRGO Aug 23-Sep 22**  
 Emotions are running high and everyone around you could be a little over-sensitive. To avoid arguments don't take things too personally, and be tolerant and sympathetic with the ones you love.

**LIBRA Sep 23-Oct 23**  
 This is one of those times when you may need to pay attention to your spiritual life. Make the time to achieve peace within yourself, you will receive clarity in return.

**SCORPIO Oct 24-Nov 21**  
 Opportunities in the career area are still around. If you have been hoping for a change, look around you during the next two weeks. But not everything that glitters is gold so be thorough in your search.

**SAGITTARIUS Nov 22-Dec 21**  
 Your ruler has entered the sign of Taurus and life is taking a turn. You will seek to build a little bit of solidity around you. If you have been feeling 'up-rooted', this is the time to find your place.

**CAPRICORN Dec 22-Jan 19**  
 Mercury is still crossing through your sign and keeping communications plentiful and interesting. You are feeling soft and mushy and your loved ones will enjoy the extra affection.
